Programme Outcome

This programme gave a very good exposure to the students and therefore, we found the following outcome of this programme among the students

1. Disaster preparedness activities embedded with risk reduction measures can prevent disaster situations and also result in saving maximum lives and livelihoods during any disaster situation, enabling the affected population to get back to normalcy within a short time period.
2. Disaster management aims to reduce, or avoid the potential losses from hazards, assure prompt and appropriate assistance to victims of disaster, and achieve rapid and effective recovery.

LPG Workshop under Disaster Management

(22 December 2018)

Department of Geography LPG Workshop under Disaster Management

Report: 2018-19

Like every year, " LPG Workshop under Disaster Management

" is celebrated by IQAC and the Department of Geography. It was celebrated on 22 December 2018)in the college. The program was presided over by the principal of the college. S.S.Tawade was graced by Prof. S.J SonawaneSir was invited as the chief guest Manmad Gas Agency Manmad Introduced by Prof.A.P.Navale In the introductory part, he mentioned why LPG Workshop under Disaster Management should be celebrated. Geography Department Prof. Aware Madam introduced the chief guests.

After that the chief guest interacted with the students through a In his lecture on the importance, causes, effects and remedies of LPG Workshop under Disaster Management, he said that " A disaster is a catastrophic situation in which suddenly, people are plunged into helplessness and suffering and, as a result, need protection, clothing, shelter, medical and social care and other necessities of life. The Disaster Management Plan is aimed to ensure safety of life, protection of Environment, protection of installation, restoration of production and salvage operations in this same order of priorities. For effective implementation of the Disaster Management Plan, it should be widely circulated and a personnel training is to be provided through rehearsals/drills. To tackle the consequences of a major emergency inside the plant or immediate vicinity of the plant, a Disaster Management Plan has to be formulated and this planned emergency document is called "Disaster Management Plan".

The objective of the Industrial Disaster Management Plan is to make use of the combined resources of the plant and the outside services to achieve the following:

- Effect the rescue and medical treatment of casualties;
- Safeguard other people;
- Minimize damage to property and the environment;
- Initially contain and ultimately bring the incident under control;
- Identify any dead;
- Provide for the needs of relatives;
- Provide authoritative information to the news media;
- Secure the safe rehabilitation of affected area;
- Preserve relevant records and equipment for the subsequent inquiry into the cause and circumstances of the emergency.

In effect, it is to optimize operational efficiency to rescue rehabilitation and render medical help and to restore normalcy. Disaster Management Plan should include Emergency Preparedness Plan, Emergency Response Team, Emergency Communication, Emergency Responsibilities, Emergency Facilities, and Emergency Actions.

The principal of the college, S.S.Tawade in his presidential address said, " Compared to other gases LPG has clean and smoke-free ignition. It does not produce toxic gas and has clean burning. In disaster-stricken areas, where the air quality is already compromised, using LPG helps in minimising further pollution to maintain a healthy work environment for survivors, rescue and relief workers.." why LPG Workshop under Disaster Management program was hosted by Prof. D.S. Bagul, then Prof. A.B.Jadhav thanked everyone. The program was attended by a large number of faculty, staff and students of the college.
